1.
Draw a thick, dark upper eyelid.

2.
Add a corner of the eye to the back. Then draw the lower eyelid very slim.

3.
The iris doesn't have to be a complete shape. Sometimes leaving a gap can make your character design look unique. Then, draw the small pupil.

4.
Draw the striking, pointy eyelashes! Then draw a small eyelid crease.

5.
Keep the eyebrow angled upwards. The front end is thick and boxy. The back end is slim and pointy.

6.
Ink your art!

Sometimes you don't need to shade in the pupil. Leave it white for characters who are under a spell, or who are feeling unnatural.
